ACKNOWLEDGEMENTS

This compilation is a collaborative effort with input from collectors & dealers of Wileman/Shelley miniatures. This work in its entirety is submitted exclusively to the National Shelley China Club without reservation for use & distribution at the sole discretion of the club. Special thanks is extended to numerous members of the National Shelley China Club, The Shelley Group of Great Britain, the Australasian Shelley Club & the New Zealand Shelley Club, all of whom have been of extraordinary help with the identification of miniatures in this compilation. This initiative is intended as a representation of "verified as existing" Wileman/Shelley miniatures updated as of October 2025. Our sincere gratitude to Ann & Jack Glindemann, Elaine Weinstein & others wishing to remain anonymous for their encouragement regarding this project as well as providing input to assure this listing reflects a snapshot of all known Shelley miniatures at this point in time. We are confident numerous Wileman/Shelley miniatures exist that are not included in this listing which is but a "work in progress".

Sincere thanks to Sheryl Burdess for the herculean effort made with her publication of "Shelley Tea Ware Patterns." It was an invaluable resource in cross checking pattern names & numbers. Heartfelt thanks to Chris Davenport of the Shelley Group for his oversight & numerous clarifications regarding pattern numbers & descriptions. Also, a very special acknowledgement of the late Curt Leiser, who was a NSCC charter member & participant, along with his late wife Lynne, in countless NSCC initiatives over many years. Curt's initial template for identifying existing Shelley miniatures developed in 1997 served as the catalyst for this project. Profound thanks to NSCC founder Bernie Houston for so proactively encouraging & promoting interest in Shelley miniatures during the early years of the club. Finally, sincere gratitude is extended to Mike Smith, Editor of the NSCC Magazine for his helpful support & to Lyle Keating & my niece, Laura Steimer for their patience in attempting to lead me out of the wilderness relative to my being hopelessly technology challenged.

Most importantly, heartfelt thanks to my wife Jeanette for continuing to indulge me for over forty years in any number of widely varying collecting compulsions. Special thanks also to our sons, Ron & Greg for their long suffering endurance & bemusement while growing up with my "collection passions" & willingness to be dragged along on endless "hunt related" cross country junkets. Thankfully, they have seemingly survived their father's eccentricities & increasingly express unsolicited appreciation for many of the "acquisitions" that bewildered & surrounded them growing up.
