*Note: The name of 2371 is Cappers Camellia and the name of 2409 is Ratauds Camellia,			
yet the lithos look exactly alike. The author is unable to resolve this anomaly at this time.			
** Note: The name of each of these patterns is the same, Baileys Yellow Rose, yet the flowers on 2452 differ			
from the flowers on 2464 and 2472. The author is unable to resolve this anomaly at this time.
